Meeting purpose:

With the aggregation of data from existing studies and plans, comment letters submitted as a part of this planning process, and the public kickoff all completed, we are able to begin the work of identifying the issues the St. Louis River One Watershed, One Plan process could address. This meeting will provide an opportunity to learn more about the issues that have been emerging through the process to date, and how those have been combined to get to a reduced number of issue statements. **The primary purpose of this meeting is to hear your feedback on the drafted issue statements.**

Work to complete in advance

- Review the issue statements memo, and prepare your responses to the feedback questions
 - o What do you like?
 - o What do you dislike?
